Introduction to Python
Day 1

Patrick Cunha Silva
pcunhasilva@wustl.edu

Ben Noble
bsnoble@wustl.edu

August 24, 2020

Course Overview

- Patrick's office hours:
    - One hour following Lab
    - By appoitment to talk about your final project
- Homeworks
    - Will be 5 homework assignments
    - Will be due Thursday and Monday (end of day)
    - Work together, but write your own code
    - Submit homeworks on GitHub. Commit often and use comments
    - Direct questions about the homeworks to Ben
- Online Poster Session
    - TBD

Why Python?

- Helpful for web scraping, APIs, text, apps
- Transferable skills to other languages
- Send a signal to faculty
- 83% of Data Analysts said to use Python on a regular basis, 36% said that use R. See: `https://bit.ly/2XQQe8c`
